

The BELT'S BEST COTTONS

For many years we have produced the finest cottons in the world. They are outstanding cottons because of the years of experimentation, research and scientific breeding we have put into them. We have developed Deltapine 15 and D. & P. L. - Fox to give higher yields, higher lint percent and to have better spinning qualities than ordinary cottons. This season grow more cotton on less acres — plant Deltapine 15 and D. & P. L. - Fox cottons.

Purple Tag Breeder's Registered *D&PL-FOX*

Fast Fruiting • Early Maturing • Heavy Yielding
Excellent for Machine Harvesting • Moderately-High Lint Percent (34% to 38%) • $1\frac{1}{16}$ to $1\frac{1}{32}$ Inch Staple • Good to Very Good Yarn Appearance • Good Spinning Qualities.
